WHY FOTOVIDEO?

We have 19 years experience in the photographic and video industry

By keeping our packages simple you get reasonable prices

We believe that the photographs must reflect your character, so we meet with you before the wedding to discuss your ideas, and where possible have a "dry run" at the venue where the photographs are going to be taken.

We use high quality professional equipment.

Videography and photography is what Michael does for a living, he is a true professional.

This is not a weekend past time to earn extra money for him!

We are members of the Photographic Society of Southern Africa.

**Photographic Society
of Southern Africa**

Reasons people have their wedding professionally videoed.

1. The wedding day is usually a blur. It is so nice to sit back and watch your wedding, when you aren't the centre of attention.
2. To send copies to family and friends who could not make it.
3. To show your children one day
4. Who was not singing in the church etc.

There are many more personal reasons

Why have your wedding filmed in HD and on Blu-ray.

1. **Quality, quality, quality!!!**
2. Do you want your kids laughing at you one day because your wedding video is on DVD ☺ ?

NOTES / QUESTIONS:
